I'm Abraham, a multifaceted Asset Ready to Meet Your Team

I have a strong JavaScript skillset with a focus on React & Node. I have always stayed relevant while embracing new technologies. I can quickly learn new ideas and trends in technology. My background is in web applications. I have over 3 years of experience in designing, developing, coding and maintaining such systems.

I prefer Frontend development but have the experience to develop in both environments where backend teams are limited. I'm fluent in modern frameworks like Bootstrap, Materialize, WordPress and WooCommerce

I'm a motivated, smart, eager to learn, creative problem solver that doesn't take "It can't be done." for an answer. So, let's create something, I'm ready, are you?

Email: christopherabraham8@gmail.com
